

Upper Rhine Cluster for Sustainability Research

Researchers Profil

Name, Position & Affiliation

Prof. Dr. Stefan Baumgärtner

*Professor of Environmental Economics
and Resource Management*

University of Freiburg, Germany

Expertise in relation to the topics of the URCforSR (include max. 3 related and recent publications)

Baumgärtner, S., M.A. Drupp and M.F. Quaas (2015), Subsistence, substitutability and sustainability in consumption, *Environmental and Resource Economics*.

Abson, D.J., H. von Wehrden, S. Baumgärtner et al. (2014), Ecosystem services as a boundary object for sustainability, *Ecological Economics* 103, 29–37.

Baumgärtner, S. and M.F. Quaas (2010), What is sustainability economics? *Ecological Economics* 69(3), 445–450.

Special Interests in the topics of the URCforSR

My general interest is in ecological, environmental and resource economics, with a focus on sustainability. My current research interests include sustainability economics; the economics of biodiversity and ecosystem services; risk, resilience and insurance in ecological-economic systems; sustainable rangeland management in semi-arid regions; thermodynamics and joint production in economy-environment systems; as well as responsibility for sustainability.

What you are searching for regarding the cooperation within the URCforSR

As always at the beginning of something new, I am searching for surprise, inspiration, and motivation – with people and with ideas.

Or, put negatively: I am not in for more bureaucracy, projects, or money.
