Upper Rhine Cluster for Sustainability Research

Template 2 for kick-off meeting, Freiburg 07./08. 10. 2016

Working Title (for joint project/thematic field of cooperation) / Axis

Anthropogenic impact on ecosystems and human health in the Upper rhine region

Sketch of content (elaborate!)

- Working on systems: air, soil, water
- Pollutants: nanoparticles, heavy metals, pesticides, pathogens, microplastics...
- Human health: linking big data from environment and human health
- Exacerbating effects of climate change, Perception of the risks of health hazards
- Impact of politics decision and consumers attitude
- Early indicators of health risks (bio-markers)

Next steps

- Write an abstract & identify expertises in the Cluster and then outside the Cluster
- Establish a state of the art on each competence
- Prepare a workshop for the first trimester 2017
- Identify grants opportunities
- Keep communication through Skype meeting
- Commit subgroups for proposal writing depending on the call
- Apply for a COST action

Responsible Person

Guéladio Cissé (UNI BASEL)

Members **committed** to working in the group

Gueladio Cissé (Basel), Mourad Elhabiri (Unistra), Gaetana Quaranta (Unistra),
Alexandra Rieters (Freiburg), Valérie Geoffroy (Strasbourg), Patricia Holm (Basel) Helmut Lehn (KIT),
Eliane Propeck (LIVE, Strasbourg), Nino Kunzli (Basel), Jean François Brillhac (UHA Mulhouse),
Gwenaél Imfeld (Strasbourg), Jeremy Rimbon (KIT), Ado Ampofo (Landau), Mirella Del Nero (Unistra),
Stéphane Vuilleumier (Unistra), Max Bergman (Basel), Gerhard Schäfer (Unistra),
Laurence Jouniaux (Unistra), Damien Mertz (Unistra)
