

Venue

KIT-ITAS
Karlstrasse 11
76133 Karlsruhe

Access

Public transport

From the central train station it takes about 15 minutes. Several tram lines bring you to the stop 'Europaplatz'. Leave the train station to direction City, take tramline 4 (direction to Waldstadt) or 3 (direction to Heide) and get out at the stop 'Europaplatz'. From here it is just a short walk to ITAS.

Registration

Please confirm your participation before **3rd of September 2018** by sending an email to Kira.schumacher@kit.edu and franka.steiner@kit.edu

Costs

Participation is free of charge.
Travel expenses and accommodation to be covered by the individual institutes.

Conference Langue

The workshop language is English.

Organization

Karlsruhe Institute of Technology (KIT)
Institute for Technology Assessment and Systems
Analysis (ITAS) and
French-German Institute for Environmental Research
(DFIU)

Background and Objectives of the Workshop

This last workshop of Axis 2 wants to follow up on the activities during the course of the project and give room for further discussions as well as new ideas, also beyond the cluster.

The workshop is directed to all researchers involved in the Axis “Energy, Infrastructure and Societal Change”.

In the morning, we will start with selected talks providing insights in the research of several institutes regarding the topic of “Sustainable Cities”. Moreover, there will be the opportunity to discuss the current state of work in the working group and present new research ideas. In the afternoon, there is the possibility for working group meetings.

The whole day will depend on your interaction and offer various opportunities to meet with other researchers to work on your project ideas. Please confirm your participation before September 3rd 2018.

We are looking forward to meeting you all in Karlsruhe.

Your Axis 2 enabler team
Kira Schumacher
Franka Steiner

Agenda

09:30 – 10:00 Reception of participants

10:00 – 10:10

Welcome from the KIT

Prof. Dr. Grunwald (ITAS, KIT)

10:10 – 11:10

Focus topic: Sustainable Cities
